

## Re. Grizzly 11th March 2012

### **GRIZZLY HELPERS - GROUP LEADERS**

Please act as the focal point of contact between the Grizzly organisers and the members of your group. With nearly 400 people helping stage the race, the fewer we have to speak to directly the easier it is for us. You should ensure that all information is cascaded to your group members, that they understand their function and that they receive bibs (if appropriate) and Grizzly t-shirts. If you have any doubts please do contact us – we don't want runners going the wrong way, facilities missing or other oversight on race day. We can also suggest appropriate parking and approach routes if you don't know them. We appreciate any specific feedback you may have over how the race is organised. If there are things which could make your job easier or which you think the runners may appreciate then do let us know.

The Grizzly Course Full Details document shows you where your group will be, the times the runners should pass you ( look in the "**overall**" columns), and specific instructions under Notes. Some of you may need to do small jobs like removing gates etc. before the runners arrive.

**Your group (Honiton Running Club) agreed to provide 8 marshals and so will cover points: 58 to 63 and will be needed from about 11.35 to 13.45**

### **HONITON SPECIAL NOTES:**

In the first field ( ie. from 58 to 59 - Garry (& the farmer) wants runners to keep to the left of the field to point 58a which will be taped off. Runners will want to go diagonally across the field which is the shortest route - so the person at 58 will need to know this.

Also there are 3 gates to be removed at 59, 60 and 61 - one person could do all 3 on their way to a later stage position - 17mm spanner and also pliers and 2 x screwdrivers needed.

Thanks for your time and help - kind regards - Rick Wood
